Teachers' Association. The lecture will be free to ail, and all are invited.

A mass meeting of the ladies of the Valley was called for last Thursday, at the Court House; but, on account of the small number present, it adjourned, to meet on Toursday, Feb. 2d. at the residence of Mrs. S. G. Fairchild. Every lady interested in helping the poor in our midst is requested to be present.

There were 145 railway employes discharged in Carondelet last Saturday, and the bridge at Cadet was burned Sunday night. We don't presume to suppose that there is any connection between the two occurrences: but, we tell you, railroad men are mad at Hoxiemighty mad. And outside people generally. although they condemn lawles sness, don't sympathize with the railroad management.

PUBLIC SALE .- The undersigned will seil at public auction, on his farm in Belleview, four miles west of Cross Roads, on

Saturday, February 4th, 1882, the following: One span of Work Mules, 2 good Road Wagons, 3 sets of Double Harness, 2 sets of Plow Harness, 5 men's Saddles and Rigs, 1 Side-Saddle, lot of Wheat and Corn, Resper and Mower, and a large lot of general Farming Implements. Sunday night the Cadet bridge on the Iron Mountain railroad was burned, and in consequence the St. Louis mail did not get here until 8 o'clock Monday night. No 1 did not get through at all, but No. 4 ran up to the burned bridge and transfers were made from the two trains-No. 1 going back to St. Louis, and No. 4 returning south. Monday one of the new heavy engines was derailed near Pledmont, and blockaded all business for twenty-four hours-indeed, at this writing (Tuesday noon) no trains are running, and cho ce field, garden and flower seeds grown their absence is conspicuous to everybody and for sale by Joseph Harris, Moreton Farm, along the line.

All our goods are made upon honor, and we send to any part of the world on test trial, and if no pleasee no keepee, world on test trial, and if no pleasee no keepee, as the Chinaman would say. For the past ten years we have sent both planos and organs to every part of the world, and our instruments give the most universal satisfaction. If you wish a good instrument, one that will always last you, we shall be pleased to send you our estalogue and prices; and if you purease one catalogue and prices; and if you purcase one of the Thomas Brothers' Silver Tone Instruments you will get what you require, and one instrument sold in a neighborhood always sells us more. Address, for prices, etc., Jas. H. THOMAS, successor to Thomas Brothers, Catskill, N. Y., U. 8, A.

BACK TAXES .- We understand that the Collector has turned over the Personal Back Tax List to Paul Patton, Esq., who will use all the means the law allows for the collection of this particular tax. Collector Buford himself is very busy, and as the Court is imperative that the back taxes on personal property must be collected without delay, he has been forced to sub-let the job as above stated. The Court refuses to allow him credits without the mon er where it is at all possible to collect. Thus, while the personal delinquent list will be cousiderably boiled down, the revenue from this

source will be proportionately increased. Coroner Grandhomme, last Saturday, held an inquest on the remains of an unknown man, on the Bill Thomas farm near Graniteville. The unknown was found in an outbuilding the day before, and had been dead a week or more. The rats had eaten a portion of his face. He was about 5) years old, weight 150 pounds, and 5 feet, 10 inches high; rather well dressed, and had a carpet-sack containtilg several articles of new clothing. A pocket-hook was found on his person containing Just Received-The finest assortment of | \$4.05. It was thought he was an American perhaps caused by exposure. He was buried near where found.

Messrs. W. > RELIGIOUS MEETINGS .- During the past week a series of meetings, commencing on Sunday, the 22d ult., and continuing until the following Friday night, was held in the Presbyterian Church in Ironton as a sequel to the week of prayer. Dr. Resor, of St. Louis, was expected to be present, failed to come, so the the work fell on Rev. A. W. Wright. Rev. M. Bell, of the Methodist Church, kindly rendered valuable assistance. Two meetings were held each day. Owing to the inclemen cy of the weather the attendance was not very large, but a deep interest was manifested and evident benefit received by those who did attend. Rev. Mr. Wright has fully proven his ability to sustain a prolonged effort.

Y. His "Walks and Talks on the Farm" have made his farm and his neighbor, "The Deacon," familiar to thousands of agricultural readers. He is the author of "Harris on the Pig" and "Talks on Manures." In 1866 he was elected the first resident Professor of Agriculture in B. Zwart Cornell University, but preferred to continue to "Walk and Talk" on his own farm. His seeds are exceptionally good. They are warranted fresh, of the choicest strains and sure to grow. Mr. Harris informs us that he will be glad to send his Catalogue for 1882, with directions for cultivation, free to every reader of the REGISTER who will send his name and postoffice address on a postal card. Send for a Catalogue and then order some seeds. You

Good scholarship usually accompanies regular attendance and good behav or. We therefore urge upon parents the necessity of looking carefully after these latter elements. The monthly reports have been issued to the pupils, and we call the attention of the

parents to the importance of examining A large number of children come to the school building too early in the morning; a

few too late. Will parents help correct this, also-3:45 o'clock is early enough. We are anxious to make the school term as profitable to all as possible, and suggest that children be kept home evenings, usually, and required to spend a portion of the time on their lessons.

Parents are requested to visit the school. C. B. ISHAM, Principal.

NEW YORK, 1883 THE SUN for 1882 will make the Misconi annual revolution under the present management, shining, as always, for big and little, mean and gracious, contented and unbappy, Republican and Democratic, deprayed and virtuous, intelligent and obtuse. The Sun's light is for mankind and womankind of every port; but its genial warmth is for the good.

light is for mankind and womankind of every sort; but its genial warmth is for the good, while it pours hot discomfort on the bistering backs of the persistently icked.

The Sun of 1868 was a newspaper of a new kind. It discarded many of the forms, and a multitude of the superfluens words and phrases of ancient journalism. It undertook to report in a fresh, succinct, unconventional way all the news of the world, omitting no event of human interest, and commenting upon affairs with the fearlessness of absolute independence. The success of this experiment was the success of The Sun. It effected a permanent change in the style of American newspapers. Every important journal established in this country in the dozen years past has been modified and bettered by the force of the Sun's example.

The Sun of 1882 will be the same outspoken, truthtelling, and interesting newspaper.

By a liberal use of the means which an abandant prosperity affords, we shall make it better than ever before.

We shall print all the news, putting it into

than ever before.

We shall print all the news, putting it into readable shape, and measuring its importance, not by the traditional yardstick; but by its real interest to the people. Distance from Print ing House Square is not the first consideration with The Sun. Whenever anything happens worth reporting we get the particulars, whether it happens in Brooklyn or in Bokhara.

In politics we have decided opinions; and are accustomed to express them in language

er it happens in Brooklyn or in Bokhara.

In politics we have decided opinions; and are accustomed to express them in language that can be understood. We say what we think about men and events. That habit is the only secret of The Sun's political course.

The Weekly Sun gathers into eight pages the best matter of the daily issues. An Agricultural Department of unequalled morit, full market report, and a liberal propertion of literary, scientific, and domestic intalligence complete The Weekly Sun, and make it the best newspaper for the farmer's household ever printed.

Who does not know and read and like The Sunday Sun, each number of which is a Golconda of interesting literature, with the best poetry of the day, prose every line worth reading, news, humor—matter enough to fill a good-sized book, and infinitely more varied and entertaining than any book—big or little. If our idea of what a newspaper should be pleases you, send for The Sun.

Our terms are as follows:

For the daily Sun, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or 26.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents per month, or 37.70 a year, postage paid.

The Sunday edition of The Sun is also furnished separately at \$1.30 a year, postage paid.

The price of the Weekly Sun, eight pages, fifty-six columns, is \$1 a year, postage paid.

For clubs of ten sending \$10 we will send an extra copy free.

THE MISSOURI REPUBLIC PROSPECTUS

This paper, usually called the St. Louis Republican, published in the great trans-Miswas a small territory and a louis a more outpost, the headquarters of a few Government officers and Indian traders. The Republican has steadily increased from a diminutive sheet, printed weekly and containing but little more than local and unimportant events, to a representative American journal, holding place in the front rank of the great newspapers of the world. Its history is the history of the West and South in all enterprises and in all the manworld. Its history is the history of the West and South in all enterprises, and in all the material, political and social interests of the country. It is the exponent of the views of that class of citizens who seek to have the Government conducted upon Democratic, popular and conservative principles, and in that regard is the organ of the most intelligent and thoughtful mirds of the extensive region is which it circulates. It reaches a great majority of postofficlates. It reaches a great majority of post-offices throughout Missouri, Illinois, Kansas, Iewa and Arkansas, and is disseminated more or less largely in every other State and Territory, be-sides going to all important points in Europe. Its various editions reach over one hundred thousand homes, counting-rooms, stores and offices; this fact growing out of a steady and uniform growth, as population has increased and mail facilities expanded. Its readers are the "bone and sinew" of the country, well informed and influential.

The Regublican, from the care with which it is edited and conducted, the enterprise manifested in the collection of news from all quarters, its consistency in the advecacy of principles bearing upon the prosperity and well being of the people, has built up a circulation not to be estimated merely by its

culation not to be estimated merely by its numerical greatness.

The Republican is published by men chiefly who have grown up from boyhood in the business, and have made the printing of a newspaper the study of their lives. It is practically impossible that any event of real importance could occur anywhere on the civilized earth and not be published in the Republican before the rising of the next sun. With the means and the purpose to publish all the news, readers of its columns will have no reason to lock further for a history of the times.

To those engaged in commerce, and indeed all who buy or sell, or are concerned in what is bought and sold, the Republican will supply all necessary and desirable information so far as it can be found in the most comerced and careful commercial reports from every important trade centre and stock market in the world.

These are some of the features of a concern that is known throughout the West and South as the "Old Reliable." Subcription Prices of the Republican.
